

Alec James H. Co

- licensed Physical Therapist specializing in movement and performance
- trained in myokinetic tools, including IASTM and cupping
- trained in orthopedic manual assessment of the peripheral extremities
- coaching professionally since February 2026

As a physical therapist and former athlete myself, I became a coach because I believe movement has the power to change lives. Seeing people become stronger, move with more confidence, and achieve things they once thought were impossible is what inspires me to keep learning, teaching, and helping others reach their potential.
